Dear President Adams and Supervisors:

The Marin Conservation League fully supports the Planning Commission and Planning Staff recommendation to extend the period for completion of the Local Coastal Plan and attendant zoning text amendments. In spite of the many workshops and public meetings, the required attention to detail and cross checking the various documents in finalizing the recommendations has been very time consuming. More time is definitely needed.

We compliment the Planning Commission and staff for all the work they have put into completing this task.

Yours truly,

Susan Stompe
President
